

Training and Capacity Enhancement of Local Governments in the Earthquake Affected Areas of Pakistan

Objectives

- To make linkage among local government, local NGO, community people, masons, and school for community safety through establishing Resource centre, District Knowledge centre, and Village knowledge centre
- To provide fundamental knowledge for making use of Knowledge centre and for community based disaster management through training programs

Resource Center (RC) & Knowledge Center (KC)

Resource is different from knowledge. Knowledge is the available useful information for people. RC will be established in Islamabad and KCs are established in Mansehra and Bagh. In Bagh, DKC (District Knowledge Centre) is also established as hub centre between RC and VKC (Village Knowledge Centre).

The roles of RC

- To collect disaster information of national level from the central government, UN organisations, NGOs.
- To transform information to knowledge
- To develop training program

The roles of KC

- To collect information from stakeholder (local government, schools, NGOs, and community people)
- To transfer the collected information to RC
- To provide stakeholder with knowledge continuously

Training Programs
